正字The Wa-hington Ball, at Bello vue Hall, on Monday evening, passed off in fine style. The hall was very beautifully decorated with flags, pictures, evergreens, &c., and displayed a great deal of taste. The attendance of both soxes was unusually large, and the lair's appeared remarkably well-That it is hardly a plain face in the crown, and ranny were very beautiful; a word in a difficult to discriminate, and eay who was the belle of the occasion.-We learn that the Dancing was continned until morning. The music was by Shaw's Cetillion Band, of Providence, and could hardly be surpassed. The supper was excellent; the tables were finely arranged and bountifully supplied Among the guests we noticed Mons Fauvel Gouraud, Vice Consul of the Republic of France, for Rhode Island, to Add cosmine. The Managers dis charged their duties admirably, and there was nothing to mar the harmony of the occasion.

The Journal and Newport News are getting ready to shed an ocean of tears because they do not find the name of our candidate for Lieutenant Gover-nor, Win. Beach Lawrence, Esq., on the voting list of Newport. They need notetrals their eyes in a search for it nor their hearts, in an attempt to cry.-There are some things in this old world of ours that will take care of themselves, of ours that will take care of themserves, and some other things that will be taked on care or by those whose business it is to take care of them. The News should be taking care of those traitors, and the horridly had sno lling "corruption" which it was lately apeaking of in its own party; and the Journal, mean time, should get up another version of Gen. James's politics. Neither of them can make a fortune by medding with the Democratical carting by medding with the Democratical care of themselves. politics. Neither of them can make a fortune by medding with the Democratic fields for State officers.—Proc. Post.

We would inform the editor of the Providence Post that we do not intend to trouble ourselves much about the locofoco nominations, as the people will dispose of them on the second of April, in a marker which will be entirely satisfactory to the Whig party. PRESIDENT'S MESSAGE. (Concluded.) I transmit to the Senate the copy of a proclamation issued by me on the 18th met, in relation to those unexpected and not, in relation to those unexpected and deplorable occurrences in Beston, together with copies of instructions from the Departments of War and Newy, relative to the general subject, and also copies of telegraphic dispatches transmitted from the Department of State to the District Attorney and Marchal of the United States to the District of Massac for the District of Massac United States for the District of Masrachusetta, and their answers thereto.-In regard to the law branch of the quiry made by the resolution of the Senite, I have to observe, that the Con-stitution declares that the President shall take care that the laws 5c faithfulstatic take care that the shall be Con-mander-in-Chief of the Army and Navy of the United States, and of the States, when called has the actual service of the United States, and that Congress what have power to provide for calling upon the militia to execute the laws of the Union, suppress insurrections and repel invasions, from which it appears that the Army and Navy are, by the Constitution placed under the control of the fixecutive; and, probably, no legislation of Congress could add to or divinaish the power thus given, but by necreasing or diminishing, or abolishing attagether the Army and Navy. But not so with the million. The President can not call out the militia into service, even to execute the laws or repel invasion, but by the nutherity of acts of Congress, passed for that purpose. But when the militim are called into survice in the manner prescribed by law, the Constitution itself gives the command to the President. Acting on this principle Congress by the act of Feb. 28th, 1795 authorized the President to call forth the militia to repel invasion and suppress insurrections against a State Guy ernment and to suppress combination against the laws of the United States, and cause the laws to be faithfully executed, but the act proceeds to declare that whenever it may be necessary in the judgment of the President to use the military force, thereby directed to be ca led forth, the President shall forthwith by proclamation, command such insurgenis to disperse and rotice peacefully to their respective abodes within a lim-ited time. These words are broad enough to require a proclamation in all cases where the militia are called out under that act, whether to repel inva-sion or suppress insurrection, or to aid in executing the laws. This section has consequently some doubt whether the militia could be called forth in executing the laws without a proclamation, but you the proclamation, seems to be in words directed only against insurgents and to require them to disperse, thereby im-plying not only an insurrection but as organized or at least an embodied force Such a proclamation in aid of the civil authority would often defeat the whole object by giving such notice to persons intended to be accessed that they would be enabled to fly or secrete themselves. The force may be wanted sometimes to protect the officer after it is made and to prevent a rescue. I would, therefore. uggest that this section be modified, by destarting that nothing therein contained shall be construct to require any provious proclamation; when the Milit a are called forth, either to repel invasion, are caused to the laws or to suppress com-bination against them, and that the President may make such a call and place such a Milistia under the control of any civil officer of the United States, to aid him in executing the law or sup-pressing such combinations, and while so comployed, they shall be paid by and subsisted at the expense of the United States; Congress not probably adverting to the difference between the Militia and the Regular Army by the act of March 3d, 1807, audiorizing the President to use the Land and Naval force of the United States for the same purposes for which beinight call forth the Militin, and subject to the same proclamation. But, the power of the President under the Constitution as Community in the Army and Navy is general, and his duty to ear the Iwas faithfully executed is general, and positive, and the act of 1897 ought not to be construed as evincing any disposition of Congress to limit or restrain this Constitutional authority. It may be well that Congress should modify or exwent that Congress should monly in ex-plain this act in regard to its provisions for the employment of her Army and Navyof the United States, as well as that in regard to calling forth the Mil-It is supposed not to be doubtful that all citizens, whether encolled in the Metria or not, may be summoned as members of the Posse Comitatus, either by the Marshal or a Commissioner according to law, and that it is their du-ty to obey such summons, but perhaps it may be doubted whether the Murshal or a Commissioner can summon as Posse Comitatus, an organized militia force, acting under its own appropriate officers, without the consent of such offi-cers. This point may deserve the con-sideration of Congress. I use the occasion to repeat the assurance, that, so far as depends on me, the haws shall be f-ithfully executed, and all foreible apposition to them suppressed, and, to this end, I am prepared to exer-

cise, whenever it pray become necessaty, the power Constitutionally invested in me, to the foliest extent. I am unity persuided that the great majority of the people of this country are warmly and strongly attached to the Constitution the preservation of the Union the support of the Government, and the asantepaire of law. I am personded that their earnest wishes a d the line of my Concur; and I doubt not, firmness, moderation, and pra lence, strengthened and acousted by the general opinion of the people, will prevent the repetition of occurren-cess disturbing the public peace, and reprobated by all good trees. MARRYING FOR FUR .- The New York correspondent of the Philadelphia In-

quirer says: There is a good deal of excitement in Harlein, in consequence of two gentlemen and two ladies bring married without kenwing it. The ceremony was performed in sport, and when informed the next day that the marriage was legal according to law, there was a great consternation. The brides, I learn, are willing to abide by the marriage, but the bridgegrooms are not, and reluse to recognize the ceremony at all. One of them is heir to a great deal of property The subject will be brought before our courts er before our legislature.

Mr. Madison's household effects are advertised in the Washington papers, to be sold at auction. Among them [are an original portrait of Washington by Smart, one of Jefferson, Madison and Mrs. M. by the same great artist, one of John Adams, by Col. Trumbull, and one of Monroe, by Vanderlyn; all originals, and painted especially for Mr. Madison, and have never been out of the posession of the family. Besides these are pertraits of the great American discoverers : [Vespucius,] Columbus, and Cabet, and many other very valuable paintings.

DISEASE EXTERMINATOR.

IN PERIFICE IS the Rinks of Dail Real Knowledge, To BER and to FEEL is to KNOW, and that which is seen and known must not be contredicted. When Galileo announced the discovery of new planets, the Aristoticlians aid, "This is impossible." Galileo replied, "Look through my telescope, and behold." The philleosphers rejoined, "We will not look lest we should see them." There are a few people new a-days so silly that they will not look at facts lest some projudice should be disturbed. These persons are, however, not manareous, and their supidity injures enhady but themselven. The character of Dr. S. P. Towneed's Compound Extract of Sacsaparilla rests upon universal experience abone. Without this solid foundation, it neves could have attained the wide-spread popularity which it at present cajoys. Its value and medicinal efficacy being thus demonstrated by the experience of thousands, it is only necessary to say that seisnce smerious and verifies the verdict.

rille.

Dr. S. P. Townsend's Sarsaparilla has proved to the satisfaction of theorems, to be the GREET PURIFIER of the BLOOD and FEMALE STREAGURENT. It will not reduce the already debilitated, its Torio Action being such as to STREMGTHEN, as well as to regulate the bowels.

HOME TESTIMONY.

SALT RHEUM, OF MANY YEARS STANDING.

Tax following stidence of the effecty of Ur. S. P. TOWNSEND'S EXERACT OF BARSAFARILLA In Cutaneous Diseases, is well worthy the notice of those affected with such disagreeable scuptions:

Dr. S. P. Townshan-Dear Sir: 1 am most harr Dr. S. F. Towesann—Dear Sir: I am most happy to acknowledge that, after suffering for nearly nine years with the Sait Rheum in a very aggravated form, and being abandoned as incurable by serveral of our first physicians, I was faulty personaled to try your far-famed Harssperills. The effects were soon perceptible, and when I had used ten bottles, to my great sarprise I froud mysist rot only question. soon perceptions, and when I had used the notices to my givet surprise I found mysolf not only cured of that most disagreeable and irritaling disease, but of that most disagreeable and fritibling disease, but my general health was so much improved that it astonished my family and frant's. Since then there advised others to make use of your Medicine, and have noticed its wonderful excels curing in numerone direases, not altogether caused by a bad state

of the blood,

Yours most respectfully,

Mrs. JANE SHAW, 103 Third Areasa.
F. S. You have my content to publich the above; and it will give me great pleasure to state my case personally to any lady that is similarly afflicted.

COUGHS AND COLDS.

Dr. 9. P. Townsend's Sattsparilla contains just the qualities that are requisite in these cases. It acts as mild alterative and expectorent, thus changing a mild misrative and our rectorant, these examples the action of the system, and enabling it to throw of the complaint. The number of instances in which Coughs and Colds have been cured by this preparation is immense.

Baddellar, June 15, 1810.

Dr. S. P. Townsend—Dear Siriel was taken sick about a year ago, which was thought by many would result in Consumption. That used "old Dr." Jacob Townsend's (as he is called) Searsystilla, which deas mano good. The a tried yours, and amount happy to say it has entirely coped me. I am a clark of Col. JAMES T.
